My C Program:

```
#include<stdio.h>

int main()
{
    // Assigning the value to be integer type
    int grade;

    // Printing the instruction
    printf("Enter Your Grade: ");

    // Reading the instruction
    scanf("%d", &grade);

    // The condition and print
    if (grade >= 80)
        printf("Assigned Grade is: A");
    else if (grade >= 60)
        printf("Assigned Grade is: B");
    else if (grade >= 40)
        printf("Assigned Grade is: C");
    else
        printf("Assigned Grade is: Fail");

    // Returns value 0
    return 0;

    // 253-35-087
}
```
