

Task 1: Prepare a One-Page Software Documentation Report in Multi-Column Format (15 Marks)

1. Page Layout & Structure (3 Marks)

- Set the page to **Landscape orientation**.
- Use **two or three columns** for content.
- Adjust margins for neat presentation.

2. Header Section (2 Marks)

- Include **Project Title, Your Name & ID, and Course Name** in the top section.
- Use a **stylish heading (WordArt or formatted text)**.

3. Abstract / Overview (2 Marks)

- Write a **5-6 line summary** explaining what the project does and its purpose.
- Justify the text for a clean look.

4. Documentation Content (5 Marks)

- Use **headings** for each section:
 - Introduction
 - System Requirements
 - Working Process / Flow
 - Conclusion & Future Scope
- Use **bulleted points, bold, and italics** appropriately.
- Include **one small diagram or flowchart** showing process flow.

5. Formatting & Finishing (3 Marks)

- Apply **column layout and consistent font styles**.
- Insert **borders, shading, or background** for design improvement.
- Check **spelling & grammar**, and ensure the page looks balanced.

Task 2: Construct the below infographic (10 Marks)
